RoadGear Series is a totally fuss-free, mobile sound solution. RoadGear is a self-sufficient system housing 2 full-range 8"speakers, a powered mixer, a dynamic microphone and all the necessary cables. The road-worthy, high-impact modular polymer construction in a wheelbase, luggage-style cabinet makes RoadGear the ideal mobile sound solution for live performers, schools, churches, conferences, special events, and anywhere that calls for a quick, fuss-free set-up. The two detachable speakers feature an advanced high-pressure molded enclosure, designed for better handling of audio acoustics and improved sound dispersion. The packaged powered mixers also include tone control, effects, universal phantom power, a 3-band system equalizer and two quality speakers.
